Assets = Liabilities + Equity

Cash + Equipment + Buildings = Liabilities + Equity

\$58,000 + \$207,000 + \$176,000 = \$142,000 + Equity

\$441,000 = \$142,000 + Equity; Equity = \$299,000

170) C

Assets = Liabilities + Equity

Cash + Equipment + Buildings = Liabilities + Equity

\$57,000 + \$206,000 + \$175,000 = \$141,000 + Equity

\$438,000 = \$141,000 + Equity; Equity = \$297,000

171) E

Assets – Liabilities = Equity

Cash + Buildings + Land – Liabilities = Equity

\$63,000 + \$121,500 + \$202,000 – \$127,000 = \$259,500

172) E

Assets – Liabilities = Equity

Cash + Buildings + Land – Liabilities = Equity

\$70,000 + \$125,000 + \$205,000 – \$130,000 = \$270,000

173) A

Net Income = Revenues – Expenses

Net Income = Consulting Revenue – Employee Salaries Expense –

Interest Expense – Rent Expense

Net Income = \$440,000 – \$190,000 – \$20,000 – \$30,000; Net Income = \$200,000

174) A

Net Income = Revenues – Expenses

Net Income = Consulting Revenue – Employee Salaries Expense –

Interest Expense – Rent Expense

Net Income = \$400,000 – \$180,000 – \$10,000 – \$20,000; Net Income = \$190,000

175) D

## **Financial and Managerial Accounting 9th Edition by Wild**

### **CH01**

Revenues – Expenses = Net Income

Service Revenue – Rent Expense – Utilities Expense – Salaries  
Expense

$$\$340,000 - \$68,000 - \$5,200 - \$101,000 = \$165,800$$

176) D

Revenues – Expenses = Net Income

Service Revenue – Rent Expense – Utilities Expense – Salaries  
Expense

$$\$300,000 - \$48,000 - \$3,200 - \$81,000 = \$167,800$$

177) B

178) E

179) A

Net Change in Cash = Cash Flows from Operating Activities + Cash  
Flows from Investing

Activities + Cash Flows from Financing Activities

Net Change in Cash = \$80,500 + (\$65,000) + \$43,000; Net Change in  
Cash = \$58,500

180) A

Net Change in Cash = Cash Flows from Operating Activities + Cash  
Flows from Investing Activities + Cash Flows from Financing Activities

Net Change in Cash = \$60,500 + (\$47,000) + \$25,000; Net Change in  
Cash = \$38,500

181) D

Ending Equity = Beginning Equity + Total Revenues + Total Expenses

$$\text{Ending Equity} = \$287,000 + \$87,000 - \$55,000$$

$$\text{Ending Equity} = \$319,000$$

182) D

Ending Equity = Beginning Equity + Total Revenues – Total Expenses

$$\text{Ending Equity} = \$257,000 + \$57,000 - \$40,000$$

$$\text{Ending Equity} = \$274,000$$

## Financial and Managerial Accounting 9th Edition by Wild

### CH01

183) D

Beginning Equity + Total Revenues – Total Expenses = Ending Equity

$$\$296,000 + \$82,000 - \$44,000 = \$334,000$$

184) D

Beginning Equity + Total Revenues – Total Expenses = Ending Equity

$$\$277,000 + \$63,000 - \$25,000 = \$315,000$$

185) B

186) C

Assets = Liabilities + Equity

Cash + Accounts Receivable + Office Equipment = Accounts Payable +  
Equity

$$\$40,000 + \$25,000 + \$59,000 = \$26,000 + \text{Equity}$$

$$\$124,000 = \$26,000 + \text{Equity}$$

$$\text{Equity} = \$98,000$$

187) C

Assets = Liabilities + Equity

Cash + Accounts Receivable + Office Equipment = Accounts Payable +  
Equity

$$\$22,000 + \$16,000 + \$50,000 = \$17,000 + \text{Equity}$$

$$\$88,000 = \$17,000 + \text{Equity}$$

$$\text{Equity} = \$71,000$$

Assets = Liabilities + Equity

$$\text{Assets} = \$104,000 + (\text{Beginning Equity} + \text{Revenues} - \text{Expenses})$$

$$\text{Assets} = \$104,000 + (\$169,000 + \$234,000 - \$177,000)$$

$$\text{Assets} = \$104,000 + \$226,000; \text{Assets} = \$330,000$$

189) E

## Financial and Managerial Accounting 9th Edition by Wild

### CH01

Assets = Liabilities + Equity

Assets = \$92,000 + (Beginning Equity + Revenues – Expenses)

Assets = \$92,000 + (\$145,000 + \$210,000 – \$165,000)

Assets = \$92,000 + \$190,000; Assets = \$282,000

190) B

Return on Assets = Net Income/Average Total Assets

Return on Assets = \$27,500/[( \$220,000 + \$320,000)/2]

Return on Assets = \$27,500/\$270,000 = 0.102 = 10.2%

191) B

Return on Assets = Net Income/Average Total Assets

Return on Assets = \$17,500/[( \$200,000 + \$300,000)/2]

Return on Assets = \$17,500/\$250,000 = 0.07 = 7.0%

192) A

Return on Assets = Net Income/Average Total Assets

Return on Assets = (Revenues – Expenses)/Average Total Assets

Return on Assets = (\$94,000 – \$57,000)/[( \$407,000 + \$457,000)/2]

Return on Assets = \$37,000/\$432,000 = 0.0856 = 8.6%

193) A

Return on Assets = Net Income/Average Total Assets

Return on Assets = (Revenues – Expenses)/Average Total Assets

Return on Assets = (\$80,175 – \$50,000)/[( \$400,000 + \$450,000)/2]

Return on Assets = \$30,175/\$425,000 = 7.1%

194) C

Net Increase/(Decrease) in Cash = Cash Flows from Operating Activities  
+ Cash Flows from Investing Activities + Cash Flows from Financing  
Activities

Net Increase/(Decrease) in Cash = \$44,000 + (\$39,000) + (\$29,000)

Net Increase/(Decrease) in Cash = (\$24,000)

195) C

## **Financial and Managerial Accounting 9th Edition by Wild**

### **CH01**

Net Increase/(Decrease) in Cash = Cash Flows from Operating Activities  
+ Cash Flows from Investing Activities + Cash Flows from Financing  
Activities

$$\text{Net Increase/(Decrease) in Cash} = \$27,000 + (\$22,000) + (\$12,000)$$

$$\text{Net Increase/(Decrease) in Cash} = (\$7,000)$$

196) D

Net Income = Revenues – Expenses

$$\text{Net Income} = \$119,000 - \$82,000; \text{Net Income} = \$37,000$$

197) D

Net Income = Revenues – Expenses

$$\text{Net Income} = \$83,000 - \$64,000; \text{Net Income} = \$19,000$$

198) A

Ending Equity = Beginning Equity + Revenues – Expenses

$$\text{Ending Equity} = \$89,000 + \$141,000 - \$92,700$$

$$\text{Ending Equity} = \$137,300$$

199) A

Ending Equity = Beginning Equity + Revenues – Expenses

$$\text{Ending Equity} = \$72,000 + \$90,000 - \$74,000$$

$$\text{Ending Equity} = \$88,000$$

200) E

## **Financial and Managerial Accounting 9th Edition by Wild**

### **CH01B**

26) Internal

27) income statement

28) Accounting is an information and measurement system. It identifies, records, and communicates relevant, reliable and comparable information about business activities. Accounting also includes the crucial process of analysis and interpretation. It is part of our everyday lives, through such activities as banking, paying taxes, and receiving payroll checks. Technology plays a major role in accounting by reducing the time effort and cost of recordkeeping while improving clerical accuracy.

29) The balance sheet is one of the four required financial statements a company prepares periodically. It describes a company's financial position by listing the types and amounts of assets, liabilities, and equity of a business at a specified point in time. The statement's purpose is to provide information that helps users assess the financial condition of the business.

30) There are two general types of users of accounting information. Internal users are managers and officers of businesses. They require information about business activities in order to make decisions about planning, monitoring, and control. External users rely on financial statements to make business decisions. These users include lenders, and shareholders. Lenders need information for measuring the risk and return of loans. Shareholders need information for assessing the risk and return in owning shares.

## **Financial and Managerial Accounting 9th Edition by Wild**

### **CH01B**

31) The four broad areas of accounting are financial accounting, managerial accounting, taxation and other accounting related employment. The majority of the employment opportunities are in private accounting where employees work for businesses. Private sector jobs would include general accounting, taxation, budgeting, and cost accounting activities. Public accounting offers opportunities to perform work such as auditing, tax services, and consulting.

32) The purpose of accounting is to provide useful information for decision makers. For information to be useful, it must be trusted. This requires ethical behavior by accountants and managers in all phases of gathering, analyzing and reporting financial information so that good decisions are made.

33) The two important guidelines for revenue recognition include: Revenue is recognized (1) when goods or services are provided to customers and (2) at the amount expected to be received from the customer. Assets received from selling products and services do not need to be in cash. Revenue recognized is measured by cash received plus the cash equivalent of other assets received.

## **Financial and Managerial Accounting 9th Edition by Wild**

### **CH01B**

34) The four basic forms of business organizations are sole proprietorships, partnerships, corporations, and limited liability companies (LLC). Sole proprietorships are businesses owned by one person. They are separate entities for accounting purposes, but are not separate from the owner legally or for tax purposes. Partnerships are businesses owned by two or more people who are jointly liable for tax and other obligations. Corporations are businesses legally separate from their owners, making them responsible for their own acts and own debts. They conduct business with the rights, duties and responsibilities of a person. Limited liability companies owned by one or more 'members'. LLCs are legally separate from their owners, the owners have limited liability and do not pay taxes.

35) The Financial Accounting Standards Board (FASB) is the private-sector group that has been delegated the task to set both the broad and specific principles of GAAP. The Securities and Exchange Commission (SEC) is a government agency that has the legal authority to set GAAP and oversees proper use of GAAP by companies that issue stock and debt to the public.

36) The going-concern assumption means that financial statements reflect an assumption that the business continues in operation instead of being closed or sold. Assets are therefore reported at cost rather than at liquidation value.

37) The income statement describes a company's revenues and expenses along with the resulting net income or loss over a period of time due to earnings activities. Revenues are the increases in equity from sales of products and services to customers. Expenses are the costs of providing products and services to customers. When revenues exceed expenses, net income occurs. When expenses exceed revenues, a net loss occurs.

## **Financial and Managerial Accounting 9th Edition by Wild**

### **CH01B**

38) The accounting equation is stated as:  $\text{Assets} = \text{Liabilities} + \text{Equity}$ . Assets are resources owned or controlled by a business that are expected to provide future benefit. Creditors' claims on assets are called liabilities. The owner's claim on assets is called equity. The accounting equation shows that the resources (assets) of the business equal the source of funds to acquire and the claims against those resources.

39) Liabilities are creditors' claims on assets. They reflect obligations to transfer assets or provide products or services to others in a future outflow of resources. Equity is the owner's claim to assets. Equity is also called net assets or residual interest.

40) Return on assets is useful in evaluating management, analyzing and forecasting profits, and planning activities. It shows the effectiveness of using assets to earn profit.

41) The cost-benefit constraint says that information disclosed by an entity must have benefits to the user that are greater than the costs of providing it.

42) The three types of activities reported on the statement of cash flows are (1) operating, which involve using cash to research, develop, purchase, produce, distribute, and market products and services as well as receiving cash from selling products and services; (2) financing, which are the cash inflows and cash outflows related to long-term borrowing and repaying of cash from lenders and (3) investing, which represent the cash inflows and outflows from the purchase and sale of long-term assets.

## **Financial and Managerial Accounting 9th Edition by Wild**

### **CH01B**

43) The three factors included in the fraud triangle are Opportunity, Pressure, and Rationalization. Opportunity occurs when a person is able to commit fraud with a low risk of getting caught. Pressure occurs when a person has an incentive to commit fraud. Rationalization occurs when an individual justifies fraud or does not see its criminal nature.

Difficulty : 3 Hard

Learning Objective : 01-P1 Analyze business transactions using the accounting equation.

Topic : Transaction Analysis

**11)** For each of the following transactions, identify the effects as reflected in the accounting equation. Use “+” to indicate an increase and “-” to indicate a decrease. Use “A”, “L”, and “E” to indicate assets, liabilities, and equity, respectively. Part 1 has been completed as an example.

1. Land was purchased for \$50,000 cash. +A    -A
2. Services were rendered to customers for cash.
3. A building was purchased for cash.
4. Supplies were purchased for cash.
5. Paid the office secretary's salary.
6. The amount owed on the land from Part (b) was paid.

Difficulty : 3 Hard

Learning Objective : 01-P1 Analyze business transactions using the accounting equation.

Topic : Transaction Analysis

**12)** Following is a financial summary, including balances, for five transactions (using the accounting equation form).

	<b>Cash</b>	<b>+ Accounts Receivable</b>	<b>+ Supplies</b>	<b>+ Equipment</b>	<b>= Accounts Payable</b>	<b>+ Revenues</b>
<b>1.</b>	\$ 80,000	\$ 0	\$ 0	\$ 0	\$ 0	\$ 80,000
<b>2.</b>	76,000	0	6,000	0	2,000	80,000
<b>3.</b>	60,000	0	6,000	16,000	2,000	80,000
<b>4.</b>	60,000	12,000	6,000	16,000	2,000	92,000
<b>5.</b>	62,000	12,000	6,000	16,000	2,000	94,000

Identify the explanation from (a) through (e) that best describes each transaction 1 through 5.

- (a) The company billed a customer \$12,000 for services provided.
- (b) The company provided services and received \$2,000 cash.
- (c) The company purchased equipment for \$16,000 cash.
- (d) The company purchased supplies for \$6,000 by paying \$4,000 cash and putting \$2,000 on credit.
- (e) The company received \$80,000 cash for services provided.

## Financial and Managerial Accounting 9th Edition by Wild

### CH01C

### Answer Key

Test name: CH01C

1)

	Proprietorship	Partnership	Corporation	LLC
a.	no	no	yes	yes
b.	yes	no	yes	yes
c.	yes	yes	no	no
d.	no	no	yes	no
e.	no	no	yes	yes

2) \$570,000. The Measurement (Cost) principle requires the acquisition of an asset to be recorded in the accounting records at cost.

3) 1. Business entity assumption. Buddy should refund the \$500 to the business. In the future, he should use a personal check to pay for soccer camp.

2. Going-concern assumption. Buddy's Foreign Automotive is not going out of business. The business is just closing for vacation. He could hold an appropriate sale to generate extra business before going on vacation.

3. Monetary unit assumption. Since Buddy's business is in the United States, the invoice should be restated in U.S. dollars for accounting purposes.

4. Revenue recognition principle. Since the service has not been completed, revenue should not be recognized. The \$1,500 should be placed in an account such as Deposits Received from Customers (a type of unearned revenue) until the service is completed.

## Financial and Managerial Accounting 9th Edition by Wild

### CH01C

4) Beginning equity = \$80,000; Ending equity = \$260,000

Beginning Assets = Beginning Liabilities + Beginning Equity

\$200,000 = \$120,000 + \$80,000

Ending Assets = Ending Liabilities + Ending Equity

\$360,000 = \$100,000 + \$260,000

5) \$380,000 = \$140,000 + \$240,000

Ending assets = \$350,000 + \$30,000

Ending liabilities = \$110,000 + \$30,000

Ending equity = \$240,000 (no change)

6)
