

TEST BANK

Test Bank for Medical Surgical Nursing 7th Edition by Linton

Table of Contents

UNIT I: Medical-Surgical Nursing

1. Aspects of Medical-Surgical Nursing
2. Medical-Surgical Practice Settings

UNIT II: Populations Receiving Medical-Surgical Care

3. Medical-Surgical Patients: Individuals, Families, and Communities

UNIT III: Pathology Processes and Effects

4. Health, Illness, Stress, and Coping
5. Immunity, Inflammation, and Infection
6. Fluid, Electrolyte, and Acid-Base Balance
7. Cancer
8. Pain
9. Shock

UNIT IV: Special Problems of the Older Adult Patient

10. The Older Adult Patient
11. Falls
12. Immobility
13. Delirium & Dementia
14. Incontinence

UNIT V: Therapeutics

15. Nutrition

- 16. Intravenous Therapy
- 17. Surgery
- 18. Ostomy
- 19. Palliative and Hospice Care
- 20. Complementary and Alternative Therapies

UNIT VI: Neurological System

- 21. Neurological System Introduction
- 22. Neurological Disorders
- 23. Cerebrovascular Accident
- 24. Spinal Cord Injury

UNIT VII: Respiratory System

- 25. Respiratory System Introduction
- 26. Upper Respiratory Disorders
- 27. Acute Lower Respiratory Disorders
- 28. Chronic Lower Respiratory Tract Disorders

UNIT VIII: Hematologic and Immunologic Systems

- 29. Hematologic System Introduction
- 30. Hematologic Disorders
- 31. Immunologic System Introduction
- 32. Immunologic Disorders

UNIT IX: Cardiovascular System

- 33. Cardiovascular System Introduction
- 34. Cardiac Disorders
- 35. Vascular Disorders

36. Hypertension

UNIT X: Digestive System

37. Digestive System Introduction

38. Upper Digestive Tract Disorders

39. Lower Digestive Tract Disorders

40. Liver, Gallbladder, and Pancreatic Disorders

UNIT XI: Urologic System

41. Urologic System Introduction

42. Urologic Disorders

UNIT XII: Musculoskeletal System

43. Musculoskeletal System Introduction

44. Connective Tissue Disorders

45. Fractures

46. Amputations

UNIT XIII: Endocrine System

47. Endocrine System Introduction

48. Pituitary and Adrenal Disorders

49. Thyroid and Parathyroid Disorders

50. Diabetes and Hypoglycemia

UNIT XIV: Reproductive Systems

51. Female Reproductive System Introduction

52. Female Reproductive Disorders

53. Male Reproductive System Introduction

54. Male Reproductive Disorders

55. Sexually Transmitted Infections

UNIT XV: Integumentary Systems

56. Integumentary System Introduction

57. Skin Disorders

UNIT XVI: Special Senses

58. Special Senses Introduction

59. Eye and Vision Disorders

60. Ear and Hearing Disorders

UNIT XVII: Medical-Surgical Patients with Psychiatric Disorders

61. Psychobiologic Disorders

62. Substance Abuse

UNIT XVIII: Nursing in Disasters and First Aid

63. First Aid, Emergency Care, and Disaster Management

Chapter 01: Aspects of Medical-Surgical Nursing

Linton: Medical-Surgical Nursing, 7th Edition

MULTIPLE CHOICE

1. What provides direction for individualized care and assures the delivery of accurate, safe care through a definitive pathway that promotes the client's and the support persons' progress toward positive outcomes?
 - a. Physician's orders
 - b. Progress notes
 - c. Nursing care plan
 - d. Client health history

ANS: C

The nursing care plan provides direction for individualized care and assures the delivery of accurate, safe care through a definitive pathway that promotes the client's and the support persons' progress toward positive outcomes.

DIF: Cognitive Level: Comprehension REF: p. 2 OBJ: 1
TOP: Nursing Care Plan KEY: Nursing Process Step: Planning
MSC: NCLEX: Physiological Integrity: Reduction of Risk

2. The nurse is performing behaviors and actions that assist clients and significant others in meeting their needs and the identified outcomes of the plan of care. What is the correct term for these nursing behaviors?
 - a. Assessments
 - b. Interventions
 - c. Planning

ANS: B

Caring interventions are those nursing behaviors and actions that assist clients and significant others in meeting their needs and the identified outcomes of the plan of care.

DIF: Cognitive Level: Comprehension REF: p. 3 OBJ: 1
TOP: Interventions KEY: Nursing Process Step: Planning
MSC: NCLEX: Physiological Integrity: Reduction of Risk

3. The nurse understands the importance of being answerable for all actions and the possibility of being called on to explain or justify them. What term best describes this concept?
 - a. Reliability
 - b. Maturity
 - c. Accountability
 - d. Liability

ANS: C

Accountability means that a person is answerable for his or her actions and may be called on to explain or justify them.

DIF: Cognitive Level: Comprehension REF: pp. 6-7 OBJ: 3 | 5 | 7

TOP: Accountability

KEY: Nursing Process Step: N/A

MSC: NCLEX: Physiological Integrity: Reduction of Risk

MULTIPLE RESPONSE

1. The nurse manager is providing an inservice about conflict resolution. What modes of conflict resolution should be addressed? (*Select all that apply.*)
 - a. Suppression
 - b. Accommodation
 - c. Compromise
 - d. Avoidance
 - e. Collaboration
 - f. Competition

ANS: B, C, D, E, F

The modes of conflict resolution include accommodation, collaboration, compromise, avoidance, and competition.

DIF: Cognitive Level: Knowledge

REF: p. 7|p. 8|Table 1.1

OBJ: 7

TOP: Conflict Resolution

KEY: Nursing Process Step:

N/A

MSC: NCLEX: N/A

2. What are the characteristics of an effective leader? (*Select all that apply.*)
 - a. Effective communication
 - b. Rigid rules and regulations
 - c. Delegates appropriately
 - d. Acts as a role model
 - e. Consistently handles conflict
 - f. Focuses on individual development
